Present Weather Sensor Country Code List

Biral present weather sensors report precipitation and visibility according to predefined intensity values. As no universal definition for intensity values is available sensors can be supplied configured to the requirements of a range of countries, or the customer may supply their own definitions.

Where custom definitions are required please complete a Custom Present Weather Definition Form, available from our Sales Department (enquiries@biral.com).

Definitions are currently available for the following countries/organisations:

Country Code	Country
CN-A	China - Aviation
DE	Germany
ICAO	International Civil Aviation Organization
IX	International
JP	Japan
KR	Korea
MT	Malta
NATS	National Air Traffic Service
PL	Poland
RU-A	Russia - Aviation
SK	Slovakia
SK-A	Slovakia - Aviation
TW	Taiwan
UK	United Kingdom
US	United States of America
WMO-L	World Meteorological Organization - snow by liquid water equivalent
WMO-V	World Meteorological Organization - snow by visibility
YY	Definitions provided by Customer

Note: A one off charge is made for Option YY. Order as PW.CODE from the sensor accessory table of the product price list or configurator.
